Consumer Notes:

As we enter this convention season, expect a raft of new product announcements, so this time of the year is always very exciting. Still, there's enough interesting new product this month to warrant special attention without it. Anime Village completes the release of the dubbed Gundam 0083, AD Vision re-releases an old favorite (F3) in a new repackaged and repriced tape and the first Slayers Next boxes are shipping. There's also that Dog of Flanders tape, which while it's a little slow is actually a pretty good title and another volume of Urusei Yatsura TV (this makes 21, if you're keeping count at home). The big news, however, is easily the first volume of Serial Experiments Lain: one of the best things on recent Japanese TV. Introspective and very stylish, this is probably one to get, and one that people are already asking about.

JEFF'S PICK(S) OF THE MONTH

No brainer this time around: Lain. Second place? That Emeraldus movie ... also very cool. And, of course, Tylor continues in its dubbed form with volume 2 this month.
